

Dear Veritas Customer,

In order to better serve our customers, we recently upgraded our registration system to make the “My Profile” page a step in the registration / sign in process.

When completing “My Profile”, customers are asked to identify their role and function as well as address information. Currently, the system is only displaying address fields that relate to locations in the United States. We are working on expanding the available fields. Address information for clinics and universities outside the US will soon be available.

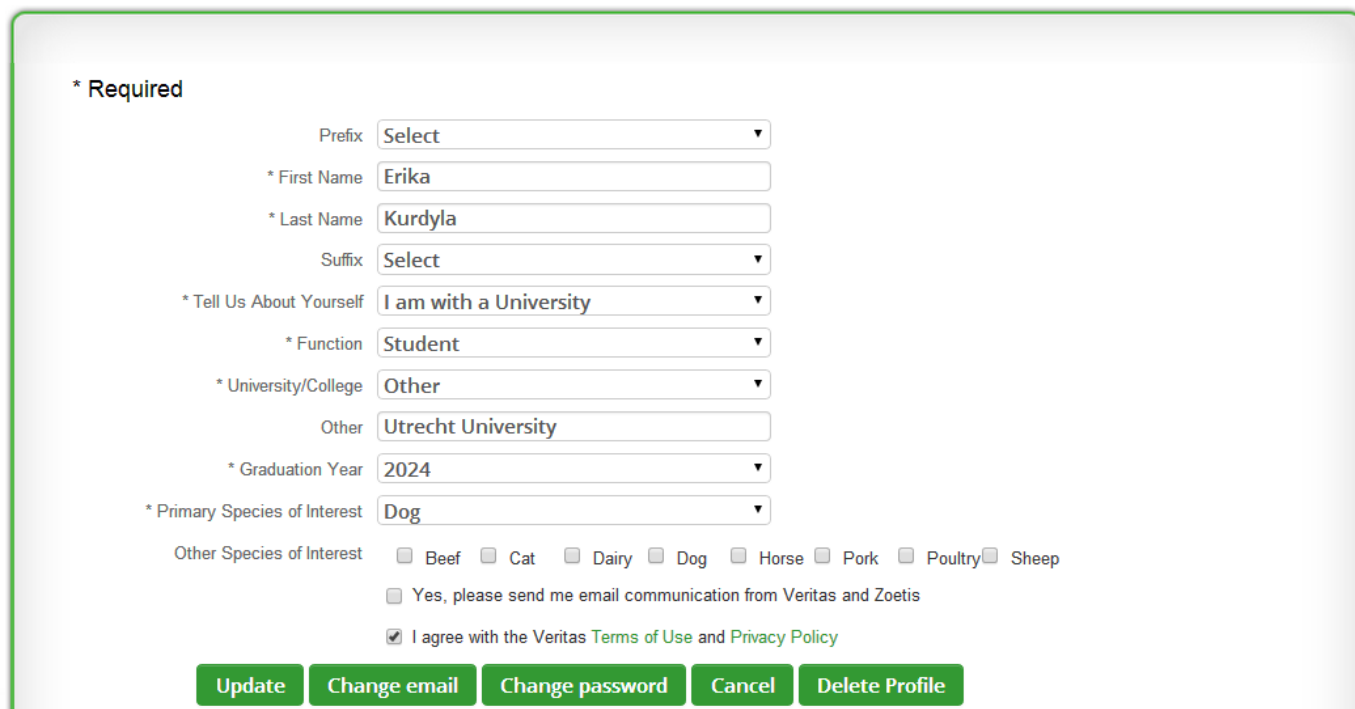

Please note, this change will not impact access to the site, previously purchased courses or purchase of future courses.

However, because the “My Profile” page is required in order to access your account, you will need to complete this page. The **\*easiest\*** way to update your profile is to select the following options:

- \*Tell Us About Yourself: I am with a University
- \*Function: I am a Student
- \*University/College: Other (or pick your alma mater if you attended a US-based veterinary college)
- \*Graduation Year: Any graduation year

Click the “Update” button and you are all set.
